## Graduate Success Story

### Mike Sparks, a February 2010 Mechanical CADD graduate from the Erie School

Mike was born with a medical condition that required amputation of one of his legs. Although Mike was faced with physical challenges, he was determined not to let his disability interfere with his goals. He always had a positive attitude and never complained about his situation. Mike has a great work ethic, not only in the classroom and work, but also in life. On March 10, 2010, he was recognized in Washington, D.C. as a Career College Association (CCA) GREAT (Graduate Recognition for Excellence, Achievement and Talent) Award recipient. This award represents the accomplishment and determination of post-secondary adult learners.

In February of 2008 Mike enrolled in the Mechanical Computer Aided Drafting and Design program at Triangle Tech in Erie, PA. Mike graduated with honors and earned the "Outstanding Tech Award" for the Computer-Aided Drafting & Design program. After a very competitive interview process, Mike was hired as a CAD Operator by the Zurn Corporation located in Erie, PA.

The following **330** graduates of Triangle Tech were recently hired.
